SUPPLEMENTARY DECLARATION UNDER 37 C.F.R. 1.132

James A. Clemens, Ph.D. declares as follows:

I am the James A. Clemens who executed a Declaration Under 37 C.F.R. 1.132 relating to the above-named patent application on October 26, 1982. This Declaration is provided to supply additional information which was inadvertently omitted from the previous Declaration.

That Declaration reported the results of a test in which two compounds were compared to controls in the inhibition of growth of DMBA-induced tumors in rats. I failed to state the number of rats in the treatment groups; there were nine rats in each of the compound-treated groups, and eight rats in the control group.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

James A. Clemens
